

## See every detail and control your IT environment

### SUMMARY

- Onsite and remote discovery of assets and software
- Clear single view of all discovered assets, software and licenses
- Puts an end to asset sprawl that often arises from de-centralised or silo-based IT management of assets across multiple locations.

### FEATURES

- Best practice processes and procedures for asset auditing, across any size of estate and complexity of infrastructure, including geo-diverse organisations
- Lifecycle management efficiencies for existing and future assets; providing a detailed asset portfolio to inform and support planning decisions for business growth
- Cost optimisation of assets, vastly improving return on investment

### THE VIADEX ASSET DISCOVERY AND MANAGEMENT SERVICE IS IDEAL FOR:

- Organisations wishing to reduce total cost of ownership; understanding your entire estate and optimising your investment, particularly as you transition to cloud services.
- Organisations whose lack of visibility and clarity of their IT assets currently restrains capacity and performance management.

Viadex remotely configure the solution and manage the discovery of all your assets and software running within your environment. We identify opportunities for you to optimise infrastructure investment, software deployment and licensing engagements, reducing any licensing exposure and security risks of unknown assets.

### THE SOLUTION

#### KNOWLEDGE IS POWER

Viadex bring an approach to understanding and controlling your IT assets which is robust and scalable to millions of devices.

The Viadex Asset Discovery and Management Service enables us to generate reports quickly and easily for you to get visibility and transparency of what's going in your environment; whether its locally, globally or in the cloud.

The more you know about your complete IT environment, the more control you'll have.

#### THE SMARTER WAY TO ELIMINATE CONFUSION AND GAIN INFINITE CONTROL OVER YOUR IT ESTATE

Discover all IP-enabled assets on your network, and all assets across your complete environment: installed software and services, plus how they're configured

#### VERIFY EQUIPMENT, FIRMWARE, OPERATING SYSTEMS, DATABASES, SOFTWARE AND APPLICATIONS

- Discover and locate new devices as they come onto the network
- Drive immediate and efficient management to prevent new devices becoming an issue
- Gain better security and governance
- Plan more confidently
- Never be caught unaware by devices that even users don't know could create compromise

## Asset Discovery and Management Service

### About Viadex

**Experience:** Viadex work with best-in-class global partners to deliver tried and tested approaches and engagement models, following a robust framework approach to ensure justifiable outcomes and reduce project risks.

**Direction:** In an increasingly competitive environment, a 'one size fits all' approach to IT rarely addresses your objectives: reducing risk, reducing costs or improving efficiencies.

**Precision:** Our structured methodology analyses your current mode of operation (CMO) to best define the scope of the IT solution, aligned to the needs of the business now and into the future.

**Focus:** Viadex provide tactical and strategic IT direction to help focus on your current and future business goals and long-term strategy.

#### Global Logistics

By partnering with our customers, we handle the process of manufacturer evaluation and selection, commercial negotiations and global support to make sure the technology solutions meet the necessary business requirements.

The Viadex Global Logistics Service helps you create an infrastructure that is agile enough to adapt and grow with you across the globe. The entire team work across all International time zones, no matter where you are based, offering a 24/7 emergency worldwide response.

#### Consulting and Professional Services

An agile infrastructure designed to service end-user experience is both critical and indispensable in today's world.

Viadex Consulting and Professional Services follow our core methodology of Audit, Design, Deploy and Optimise, to help transform your infrastructure to directly support your business productivity goals and enhance end-user experience.

#### Managed Services

Viadex has the global capability to provide a wide range of Managed Service solutions to help organisations with the operation of their technology environments.

Viadex provide 24x7x365 technical expertise, service consistency and flexibility across multiple vendors, technologies and geographies.

Every service is wrapped into our Global IT Service Desk, using IT Service Management and ITIL aligned frameworks, detailing set processes supported by highly skilled and trained people.
